

# BRIM CC the 8<sup>th</sup> anniversary

Dear lovely BRIM CC customers,

As our appreciation to your continuous support of us, we launched our 8th anniversary project, **BRIM UU (Urban Unison) project** for you.

8 years ago, we started our shop to provide something **REAL** for business people working in CBD. Now, we go back to basic once again with considering what kind of products make our customers satisfied.

The weather is going to be warmer towards summer, and you must be going to want something fresh and healthy rather than curry and soup. *(our curry is still good in summer in terms of stamina especially!)*

Therefore, we developed **TOKYO POWER SALAD** and **TOKYO STYLE MASON JAR SALAD** featuring lots of organic vegetables with our theme which is unison of Tokyo style, people in CBD, and urban atmosphere.

We developed **TOKYO LOCOMOCO**, which is a massive 150g beef meatball cooked in our organic gravy sauce and free range egg on rice. We designed this menu with image of you eating on a bench or under a tree somewhere in sunny CBD.

We have finally found the gluten free curry matched with our organic stock as well.

It takes a bit more time to start serving due to waiting for the stock to Australia from Japan now, but we proudly announce **BRIM CC GLUTEN FREE CURRY** is coming soon!

Besides, we also install **new varieties of drinks under the same theme**. Especially, Boylan bottling's iconic sodas have been made with pure cane sugar and natural extracts for over 120 years.

We are more than happy if you enjoy our new products towards summer!
